PROVIDING EDUCATION TO THE UNDERPRIVILEGED RURAL STUDENTS

When compared with the urban India, the state of education is worse in rural parts of the India. It is important that we realise and acknowledge the fact that a huge segment of our population still resides in rural India which makes it very crucial to pay heed to them.

Boosting free education to these rural students would upgrade the rural education system:

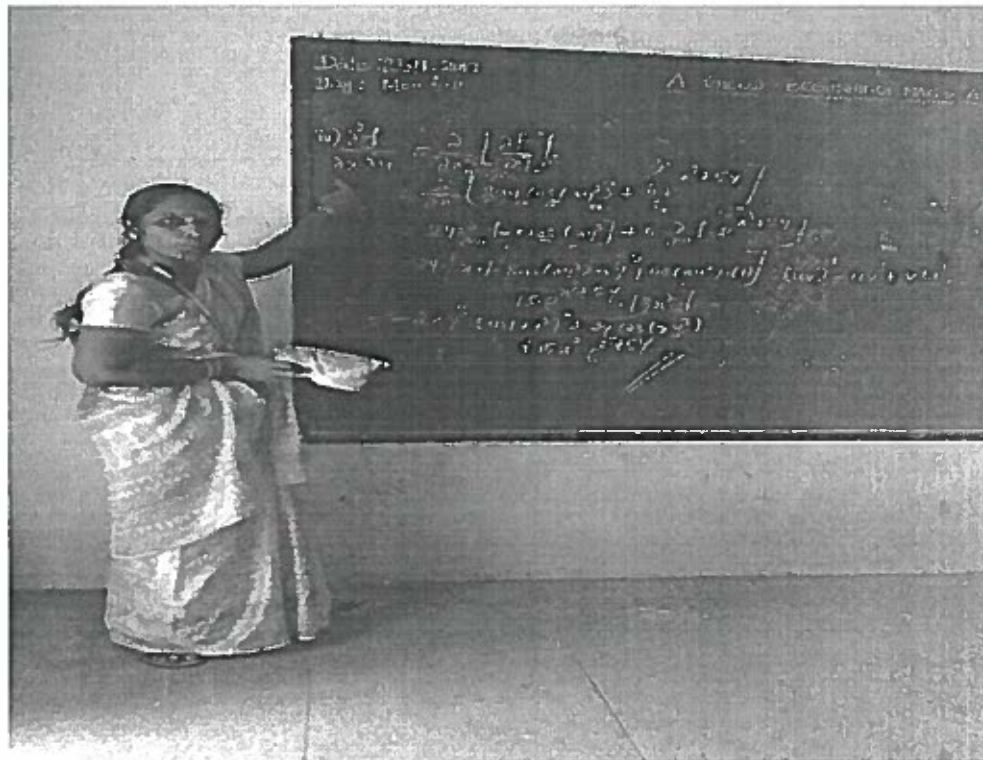

In this view, Our College Conducted free-classes for rural area school students in Mathur Village, to help overcome the challenges of lack of teachers and to help them to complete their syllabus before they appear for board exams.
